

Oamk LABs 2016-2017

[Oamk LABs](#) are English-medium non-degree programmes offered by Oulu UAS in the autumn and spring term in 2016-2017..

In [Oamk LABs](#), 3-/4-year students from different educational fields are working together in multidisciplinary teams in order to develop products or services for various industries:

- **Oulu Game LAB:** students deepen their knowledge and skills in game development (suitable for students of graphic design, ICT/programming, business/marketing, producing, music). [Curriculum](#) and <http://u.oamk.fi/ogl>.
- **Oulu DevLAB:** students deepen their knowledge and skills in sustainability, energy & environment, green care, health and wellbeing, digital solutions (suitable for students of natural resources, health care, social services & rehabilitation, tourism, graphic design, ICT/programming, business/marketing, performing arts). [Curriculum](#) and <http://u.oamk.fi/devlab>.
- **Oulu EduLAB:** students deepen their knowledge and skills in educational technology (suitable for students of education, ICT/programming, graphic design, business/marketing, performing arts, health care, social services & rehabilitation). [Curriculum](#) and <http://u.oamk.fi/edulab>.

[Oamk LABs](#) consist of a Demo Path (30 ECTS cr) by which demos of products or services are developed for an entire term, first by pitching ideas and then by working in teams on the project in a multidisciplinary and business-driven approach. Here is more information on the [pedagogical approach and methods](#), as well as a concise [overview of the pedagogy and student experience](#).

Students who have passed the Demo Path, may continue working on their project in the frame of the Product Path (30 ECTS cr) in order to bring their product or service to the market and establish a start-up company.

Throughout the [Oamk LABs](#), student teams are guided and coached by academic/professional staff of Oulu UAS and relevant industry/company representatives. Both the Demo and Product Path can be pursued either as a study or traineeship exchange.

Exchange students must apply to [Oamk LABs](#) and to one of the options or study paths (Oulu Game LAB, Oulu DevLAB, Oulu EduLAB) within the regular application dates for Oulu UAS. [Oamk LABs](#) fit best for students in their 3rd or 4th year of studies. See also [application requirements and process for exchange students](#). [Oamk LABs](#) are carried out on several campuses and facilities in Oulu.

In case of questions, please refer to field-specific International Coordinators:

- Mr [Bastian Fähnrich](#) (for students in ICT, Engineering, Natural Resources, Media and Performing Arts, Education)
